Custom Maintenance Plans

A Maintenance Plan Supported by Ongoing Vehicle Health Reports.

How It Works

1. Start with our recommended maintenance plan
2. Customize intervals to match your fleet's needs
3. Vehicle Health Report completed at each visit
4. Report organized into three priority stages

Our Benefits

- SAME DAY SERVICE - FAST
- ALL FLEET PAYMENT OPTIONS ACCEPTED
- VEHICLE HEALTH REPORT - EVERY VISIT
- CUSTOM MAINTENANCE PLANS
- 3 YEAR / 36,000 MILE WARRANTY
- ADVANCED TESTING AND REPAIRS

Our Recommended Maintenance Schedule

Service Interval in Miles	5,000	10,000	15,000	20,000	25,000	30,000	35,000	40,000	45,000	50,000	55,000	60,000	65,000	70,000	75,000	80,000	85,000	90,000	95,000	100,000	
Oil Service																					
Tire rotation																					
Fuel/Intake Service																					
Transmission Service																					
Brake Flush																					
Coolant Service																					
Rear Differential Service																					
Spark Plugs (replacement)																					
Power Steering Service																					
Belts (replacement)																					
Air Filter (replacement)																					
Cabin Filter (replacement)																					
Intelligent Key Battery																					
Alignment Check																					
Service Interval in Miles	105,000	110,000	115,000	120,000	125,000	130,000	135,000	140,000	145,000	150,000	155,000	160,000	165,000	170,000	175,000	180,000	185,000	190,000	195,000	200,000	
Oil Service																					
Tire rotation																					
Fuel/Intake Service																					
Transmission Service																					
Brake Flush																					
Coolant Service																					
Rear Differential Service																					
Spark Plugs (replacement)																					
Power Steering Service																					
Belts (replacement)																					
Air Filter (replacement)																					
Cabin Filter (replacement)																					
Intelligent Key Battery																					
Alignment Check																					

NOTES:

Vehicle Health Report

A Consistent, Documented Review of Each Vehicle to Support Long-term Maintenance Planning.

How We Prioritize What Your Fleet Needs

Each Vehicle Health Report is organized by priority for clear, informed decision-making.

Priority 1 (P1) - Needs Attention Now

- Items that require immediate attention due to safety concerns, reliability risks, or the potential to cause unexpected downtime.

Priority 2 (P2) - Needs Attention Soon

- Items that are not urgent today, but are expected to need attention within the next 6 months.

No Issues / Healthy

- Systems and components that are operating normally and show no current concerns.

What We Review in Every Vehicle Health Report

Red text indicates conditions that would be marked Priority 1 (Needs Attention Now)

Inside of Vehicle

- Windshield wiper condition
 - **Streaking**
- Test drive
 - **Noise, vibrations**
- Instrument cluster
 - **Warning lights**

Outside of Vehicle

- Lights and lenses
 - **Inoperative**
- Exterior safety items
 - **Damage creating safety issue**

Under the Hood

- Drive belt condition
 - **Cracking, fraying**
- Inspection of hoses
 - **Major leaks or brittle**
- Coolant level
 - **Low, contaminated**
- Engine oil level
 - **Low, contaminated**
- Battery condition
 - **Test fails**
- Engine air filter
 - **Visibly dirty**
- Brake fluid condition
 - **Contaminated**
- Power steering fluid
 - **Low**

Under the Vehicle

- Visible oil or fluid leaks
 - **Affecting safety or reliability**
- Suspension components
 - **Excessive play or wear**
- Exhaust condition
 - **Leaks, damage**
- Front brake system
 - **Noise or pads at 3mm**
- Rear brake system
 - **Noise or pads at 3mm**
- Front tire tread depth
 - **Tread depth at 4/32**
- Rear tire tread depth
 - **Tread depth at 4/32**
- Tire pressure
 - **Significantly underinflated**
- CV axles / driveline
 - **Torn, noise or vibration**
